Fantastic! The show provided our students with a fast paced engaging program that truly makes you think. It complimented initiatives that we have undertaken. Great videos, positive presence, wonderful energy. Thanks!

What does it look like?

Think Day is a high impact - one hour presentation featuring youth speakers, a live band, and a relevant and engaging mix of media and crowd participation. You can also add a variety of reinforcing sessions;

- Think Global - global awareness sessions which present global issues in a clear way that encourages local and global participation.
- Community wrap-up concerts which provide a summary of the core values.
- Workshop curriculum which you can use to lead further discussion on the three featured character values.

All of these options can further the impact and effectiveness of your Think Day.

What topics do you cover?

Each year Think Day focuses on 3 new character values. These values are addressed throughout our one hour presentation, and dealt with more in-depth in our accompanying workshop curriculum. Using videos produced by Make You Think™, these values are presented in an entertaining and professional manner. For the 2010-2011 school year the values are;

Responsibility

How our actions affect not only our lives, but those around us. Responsibility starts with the little things.

Hope

How hope can keep you moving forward even in the darkest of moments in your life.

Giving

Addresses the opportunity we have to meet the needs of those around us, and the importance of those interactions.

What does it cost?

As a not for profit organization, Absolute's goal is to make quality resources available to every school. By fully sponsoring each school, we can ensure that Think Day is accessible to everyone. In exchange, we ask your school to consider donating back to Absolute to help cover the costs of bringing Think Day to your students.

Think Day features skilled and passionate youth speakers that students will find themselves able to relate to. We are real people focusing on real issues.
